## Research Master track (jointly with Helsinki Graduate School of Economics)

Helsinki GSE Research Master's education equips students with the main tools of a professional economist. It represents state-of-the art scientific knowledge of the field and prepares students to operate in most demanding expert positions in government, business, and research. The advanced and technically oriented nature of the program also serves as an excellent foundation for entry into a PhD program and other research-focused roles in the society.

For more information, see <https://www.helsinkigse.fi/programs/research-masters-program>
