LANGUAGE CENTER

Course Assistant Programme & English Club

Course assistants are local students or international exchange, degree or doctoral students who support fellow students in language learning. The English Club is slightly different from the other language clubs, in that it is targeted at people who already know English on a functional level in a specific field. As such, the main point is more around creating connections than learning a new language. The activities focus around using pair/group discussions and games to help students connect with others and have fun while using English as the language of communication.

Finnish club (Suomi-Kerho)

The Finnish club is for University of Helsinki students of all language levels! The clubs offer fun activities and discussion that focus on different elements of Finnish, from conversation, pronunciation, culture and more. Club sessions are hosted by Finnish-language assistants. Participating in these club sessions is completely voluntary and will yield no ECTS credits for the participants.

LANGUAGE CENTER

Courses suitable for non-Finnish speakers 2026-2027

On this page you can find the Language Centre courses suitable for non-Finnish speakers.

Registration for Language Centre courses is done online via Sisu. In order to register for courses in Sisu, students need a valid university user ID. If you are an exchange student, you can find instructions on how to register for courses in Sisu on the page Sisu instructions: Study plan for exchange students.

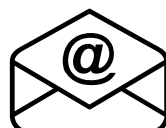

UNA EUROPA

Whether you're looking to pursue your academic interests or get involved in exciting extracurricular activities, Una Europa has got you covered. Our universities collaborate to offer a range of study options, from research programs to interdisciplinary courses that push the boundaries of traditional learning.

But Una Europa is more than just a network of top-notch universities - it's a vibrant community that encourages students to get involved and make a difference. Participate in one of our many extracurricular activities, where you can explore your passions, make new friends, and develop valuable skills.

25 Jan 2027 - 12 Feb 2027

CLIMATE UNIVERSITY

Climate University is a network of 30 higher education institutions in Finland who have co-created a total of 14 courses, which can be cross-studied by students of the partner institutions. See the courses and find more information at <https://www.climateuniversity.fi/>.

Una Europa Virtual Exchanges for Sustainability (UnaVEx) brings together students from European and African universities to explore sustainability topics in an international online learning environment. Two virtual exchanges are organised this autumn, find more information at <https://www.atm.helsinki.fi/unavex/>.

Una Europa Micro-credential in Sustainability consists of five MOOCs (Massive Open Online Courses) totaling 10 ECTS credits. The Micro-credential programme will give you a holistic understanding of global sustainability challenges and how to address them. Find more information at <https://www.una-europa.eu/study/microcredential-sustainability>.
