

Master's Programme in Integrative Plant Sciences

Master of Science, 120 cr

Advanced studies, 80 cr

Joint studies, 50 cr

- Study plan meetings
- Plants in a Changing World, 5 cr
- Design and Planning of Biological Experiments, 5 cr
- Master's Thesis seminars, 5 cr
- Literature examination, 5 cr
- Master's thesis, 30 cr

Studies according to the alternative modules, 30 cr

Choose 2 x 15 cr:

- Plant Growth and Developmental Biology, 15 cr
- Plant Biotechnology and Molecular Biology, 15 cr
- Advanced Plant Molecular Biology, 15 cr
- Plants in Their Environment, 15 cr
- Subarctic Ecology and Flora, 15 cr
- Taxonomy and Systematics, 15 cr
- Diversity and Distribution of Plants and Fungi, 15 cr

Other studies, 40 cr

Optional courses or modules from the curriculum of your own or other degree programmes. These may also include e.g. methodological studies, practical training, advanced training in a research group, language studies and courses in other universities.
