

Master's Programme in Integrative Plant Sciences

Master of Science, 120 cr

Advanced studies, 100 cr

Joint studies, 60 cr

- Personal Study Plan Meetings
- Plants in a Changing World, 5 cr
- Advanced Plant Physiology, 5 cr
- Design and Planning of Biological Experiments, 5 cr
- Master's Thesis Seminar, 5 cr
- Master's Thesis Seminar, part 2, 5 cr
- Literature Examination, 5 cr
- Master's Thesis, 30 cr

Studies according to the alternative modules, 40 cr

Choose 2 x 20 cr:

- Plant Molecular Biology, 20 cr
- Plants, Genomes and Future Environments, 20 cr
- Plant and Fungal Diversity, 20 cr
- Changing Vegetation, 20 cr

Other studies, 20 cr

Optional courses or modules from the curriculum of your own or other degree programmes. These may also include e.g. methodological studies, practical training, advanced training in a research group, language studies and courses in other universities.
